

***INFANMR2***

# PAIN POINTS EXISTING IN HOSPITAL SERVICE DELIVERY

HIGH LABOR COSTS

## High Labor Costs And Low Efficiency

- Increase hospital manpower
- Insufficient staffing
- Staff easily got sick – COVID cases

LACK OF TIMELINESS

## Time Delays And Lack Of Timeliness

- Delay in serving the patients requests
- Delay in sending documents
- Delay in giving the medicine

SERVICE QUALITY

## Inconsistent Service Quality And Accuracy

- Employee may overlook & become fatigue
- The quality of the service is unsatisfactory

PRIVACY AND SECURITY

## Customer Privacy And Security Risks

- Eliminates the need from entering the room – covid cases, influenza
- Allowing customers to receive items in a comfortable and secure environment

# THE VALUE BROUGHT BY IMPLEMENTING A ROBOTIC SOLUTION

## VALUES BROUGHT BY ROBOTIC SOLUTION

### Enhancing Customer Experience And Satisfaction

- Fast, accurate, and personalized service
- Deliver required items to the room on time
- Avoid delays and errors from traditional methods
- More convenient, efficient service, and customer satisfaction

### Improving Operational Efficiency And Reducing Costs

- Automated delivery services 24/7
- Unaffected by fatigue and human error
- Lower labour costs, enabling the hospitals enhance overall operational efficiency

### Enhancing Privacy And Security Experience

- Avoid direct contact between individuals
- Reducing the risks of safety
- Ensures cleanliness and prevents contamination during the delivery

## W3 MAIN PARAMETERS

### INFANMR2

### INFANMR2

## Product Main Parameters

Robot Size	459*549*1081mm (W x D x H)	Net Weight	48 kg (With Battery)
Load Capacity	20kg, 90L	Max Speed	0.8 m/s
Number of Compartments	2/3/4 Adjustable	Battery Life	9-12 Hours
Size of Compartments	390*385*300mm (Enough to Hold 66 Bottles of Water)	Charging Time	6.5 Hours
Obstacle Avoidance	Dual Stereo Vision Collision-sensing Bar	Positioning & Navigation	Laser, IMU, Encoder Multi-Sensors
Screen Size	11.6 inch	Maximum Climbing Angle	7°
Minimum Passage Width	70 cm	Maximum Overpass Height	1.5 cm

EXQUISITE SURFACE FINISHING CRAFTSMANSHIP

THE EPITOME OF LUXURY  
IN A GOLDEN FINISH
